

Project 4: To Display

Objective: Work individually to create an engaging display for an object that is special to you.

Methodology:

Choose an object that is special to you.
Design a cardboard structure to display your object.

Requirements:

The display must be 1-2 feet in scale in any one dimension.
The display structure and the object must stand on its own.
You may cover the cardboard display in monochromatic cardstock in a meaningful way.

Things to Consider:

Intentionally map the experience of someone who approaches your display
Study the human scale
Develop the structure with your design vocabulary in mind

Milestones:

1. User Experience Diagram – Nov 13
2. Mockette – due Nov 15
3. Digital File Check – due Nov 20
4. Test Lasercut – due Nov 27

Final Crit: T Dec 4 (last day of class)
