

SSSC PRACTICE CONTESTS & EVENTS

CREATIVE SPACES AND SERVICES

CSS is a department within the Central Library made to provide all students, from novice to expert, with resources and opportunities to create a wide range of digital, physical, and creative projects.

The Studios

A place for ideation and creation to design digital art and audio projects. Spaces and services include Motion Capture, photography and sound studios, C.R.E.A.T. area, poster printing & design, and consultation opportunities provided by knowledgeable students and full-time staff.

The FabLab

A maker space for project-based, hands-on experiential learning opportunities for learners from any discipline or experience level. The FabLab provides wood shop, 3D and vinyl printing, textiles, glass and ceramics, sewing equipment, and training in support of invention and entrepreneurship.

The Basement

A gaming area that provides students with a space to relax between classes and get to know their peers. Experienced students are available to assist in game development, as well as opportunities with table top, electronic, console, and PC gaming.
